

# ND9441P ND9541P

H.265 16-CH/32-CH Embedded Plug & Play NVR

H.265 · 16-CH/32-CH · 16 PoE · 4x HDD · ONVIF · Fisheye Dewarp · HDMI/VGA Monitor Display · Mobile EZConnect · RAID

VIVOTEK's ND9441P and ND9541P are H.265 Linux-based standalone NVRs with embedded PoE. Equipped for up to 16-CH/32-CH network cameras, the NVRs both support 16x 802.3 at/af PoE ports which feature PoE Management function to help users troubleshoot the physical layer structure. Both also display the PoE power information, providing for a more convenient and smarter installation.

The ND9441P/ND9541P also supports remote and mobile access via EZConnect and iViewer apps for both iOS and Android handheld devices. The EZConnect app provides instant push notification and direct video playback functions when triggered by an alarm notification, providing users with a flexible and intelligent NVR for seamless use in small to medium sized video surveillance applications.

With H.265 compression technology and embedded with 4 HDD's providing up to 32TB, the ND9441P/ND9541P offers greater than 30% more recording capacity than H.264 systems. This advancement provides users with more storage space for longer durations of video recording. In addition, the RAID 0/1/5 configurations provide further data security in the rare event of a hard drive failure.

For high-quality and detailed images, the ND9441P/ND9541P supports a maximum network camera resolution of 12-Megapixels. To intelligently manage bandwidth while maintaining this high-quality, the "Auto Adaptive Stream" function will adjust the display resolution automatically for each different layout type. Furthermore, the NVR supports VIVOTEK's fisheye network camera "Fisheye Dewarp" function, which provides multiple de-warping modes in live view and playback, ensuring the correct angle of video view and detailed information for flexible usage. Lastly, to quickly and intuitively find any target event, the ND9441P/ND9541P is equipped with the "Story-Board Search" function, which provides a glimpse of past recordings over an intuitive timeline.

The ND9441P/ND9541P supports HDMI and VGA local video output, so users can control the GUI OSD interface via mouse & keyboard, eliminating the need for a separate PC to search video or playback from the NVR. Additionally, the intuitive and friendly VIVOTEK GUI design gives users a smoother control experience than ever before.

#### **Key Features**

- · H.265/H.264 Compression Technology
- · Plug & Play One Button Auto Setup
- · EZConnect by Scanning QR Code for 24/7 Mobile Viewing
- · Support RAID 0/1/5 Storage
- · VIVOTEK Camera Configuration and VAST CMS Integrated
- · Live and Playback Fisheye Dewarp

- · Embedded Linux OS
- · Story Board Event Search
- · Up to 12MP Camera Liveview & Playback
- · PoE Management
- · ONVIF Open Platform (Project Support Function)

### **Highlight Features**

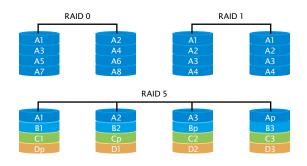

#### H.265 Compression Technology

To provide high-quality images and efficient video compression for today's surveillance applications, VIVOTEK presents these two NVRs. Endowed with H.265 technology, these NVRs offer more than  $30\% \sim 50\%$  greater recording capacity than H.264 systems - effectively giving users larger storage capacity for longer durations of high-quality video recording.

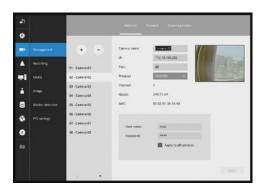

## RAID

The RAID 0, 1, 5 configuration provides further data security and reliable video storage.

#### Intuitive UI

With a friendly and elegant interactive design, users can enjoy the benefit of simple operation and an UI that's easy on the eyes.

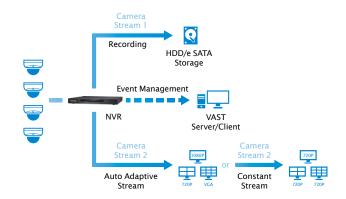

#### PoE Management

Both NVRs support 16 x 802.3at/af PoE ports which feature PoE management functions, allowing users to easily troubleshoot problems, control power budget for better operation, and set port priority settings to ensure the most important cameras are always on. When system power is overloaded, the PoE ports will auto-reboot for power supply recovery.

#### Auto/Constant Adaptive Stream

The resolution of a Camera's second Stream has two options according to the display layout selected: Auto-Adaptive Stream or Constant Stream. This increases the flexibility to reduce bandwidth and save on total project costs (auto-adaptive stream), or maintain superb video quality (constant stream).

#### One Button Setup

In order to provide users a highly intuitive experience, VIVOTEK's NVRs provide Auto- Wizard for convenient system set-up, which takes less than 2 minutes to finish it.

### **Highlight Features**

#### Story Board Event Search

To quickly and intuitively find any target event, we provide a glimpse of past recording over an intuitive timeline, allowing users to direct playback and archive their video within 10 seconds.

#### Fisheye Dewarp

VIVOTEK's NVR offers both LiveView and Playback modes for one fisheye network camera simultaneously. They also provide multiple fisheye de-warp display modes, including 10, 1P, 1R, 103R, 108R, allowing users to monitor any angle, or to enjoy precise detailed images for a total surveillance experience.

\*Support LiveView and Playback modes

#### **EZConnect - Push Notification**

Enhanced event notification for 24/7 mobile surveillance. Once the NVR has an alarm notification, the EZConnect app will receive the push notification and users can directly playback the video immediately via Android/iOS devices.

#### **VAST CMS Integration**

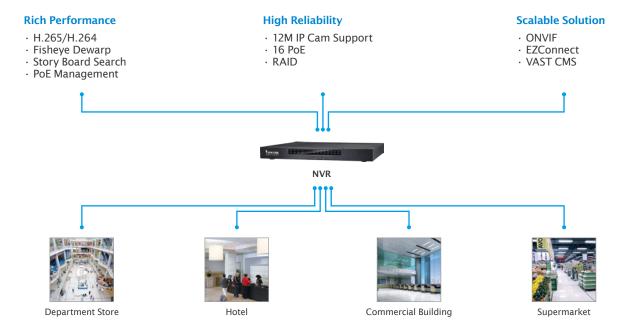

VIVOTEK's NVR is both CMS compliant and a totally scalable configuration thanks to VAST CMS. This powerful tool enables users to set up and manage advanced IP surveillance systems with ease.

- · Camera Disconnection
- · Motion Detection
- Camera Tempering Detection
- · Camera Digital Input Trigger Event
- · HDD Fail Events
